DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed on October 22, 2002 have been fully considered but they are not persuasive. First the applicant argues that the reference does not disclose "a phase change material that is arranged in such a way that heat flow from the electrical or electronic component to the heat conducting unit is not interrupted and a significant heat flow to the phase change material only occurs if the temperature of the heat conducting unit exceeds phase change temperature of the phase change material". Since the term significant heat flow is a relative term (broad), the reference (Laing '356) does disclose a phase change material that is arranged in such a way that heat flow from the electrical or electronic component to the heat conducting unit is not interrupted and a significant heat flow to the phase change material only occurs if the temperature of the heat conducting unit exceeds phase change temperature of the phase change material.

Second the applicant argues that the heat does not become absorbed by the phase change material unless there is a build up of heat that the heat absorbing unit cannot dissipate. The applicant is technically incorrect; the heat is always absorbed by the phase change material during normal heat transfer between the chip and the heat sink.

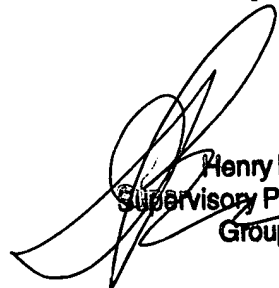

Conclusion

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
